### **What is this association?**

It is a group of people who own contiguous land in an area that has group ownership of other common land and beach set apart for the use of the owners. They form an association to take care of their common needs and the land and facilities and services that are part of their mutual ownership.

That larger association of all house and property owners then elects willing people to take care of the services and needs of the area and association.

Thankfully, it works.

Those elected officers, six of them, then carry out their responsibilities as designated in an official constitution, led by their president. Together they appoint

ten other directors or chairs of various need areas -- beaches, community welfare, finances, hospitality, playground, property, real estate, roads, and zoning -- to manage and give excellence to those areas. All report to the board formed by these 16 people. They also select and employ a property manager for many daily needs.

These six officers -- president, first vp, executive vp, secretary, financial secretary, treasurer -- and this board report to the Association as a whole, with communication and mutually beneficial policies, and officially at a meeting each August.

Just as significant as these 16 persons with clear duties and teamwork, is the cooperation of all of the members and owners, relating with each other as good neighbors ([see our Association Guidelines](#)) and aware that kindness and cooperation make everything work better.

And all of that could just be vanilla or boring, except that this Association we are in is located in a gorgeous part of the USA next to the nicest Great Lake and beside spectacular sand dunes and woods, and with grateful and kind people who care about each other and their common good.

It works, and we are grateful!

*Knute Larson*
